## **CLAIMS 1-26 ARE PRESENTED FOR EXAMINATION**

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15 and 22-26 drawn to a method of treating various medical disorders; and
- II. Claims 16-21 drawn to a method of testing compounds for use in the treatment of medical disorders.

Inventions of Group I and II are separate and distinct since they have acquired a separate status in the pharmaceutical art. A search of the separate Groups would place an undue burden on the examiner since the disorders set forth in Group I are classified in Class 514 and the testing of compounds for various medical utility are classified in Class 436.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Further restriction may be required.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Criares whose telephone number is (703) 308-4607.
